### Work Experience the past 7 year

#### Moogsoft / UI Designer

October 2017 – September 2020

Worked as one of the lead designers on Moogsoft Enterprise and Moogsoft Express software, where I designed prototype mockups and facilitated design reviews with stakeholders, and turned them into production ready designs. I collaborated with the development team to integrate the design into the final product + design review.

#### VELUX / Digital Art Director

October 2015 – September 2017

Following an international design strategy for the corporation, I designed and executed design mockups and prototypes for stakeholders. Created master files for other designer to use as blueprint.

#### JARRELAB + Jean-Michel Jarre / Creative

June 2008 – Present

Working with my friend Jean-Michel Jarre to create and explore new digital experiments in the music area. Doing research and prototyping to handover to production companies. EON - a generative music experience is the latest release.

#### Saxo Bank / Consultant UI Designer

December 2013 – March 2014

Worked with integration a new design into frontend code. Designed HTML and CSS templates for desktop & mobile devices.

#### NETS / Consultant UI Designer

June 2013 – December 2013

I worked in a team responsible converting NemID JAVA Applet for a responsive HTML/CSS version.

### Skills

#### Design

UI Graphics  
User Flows  
Concept Sketches  
Wireframes & Mockups  
Production Redlines  
Style Guide & Pattern Library

#### Prototyping

Rapid prototyping  
Interactive flows  
Frameworks (Angular, Node.js)  
Invision

#### Research

Data Analysis  
Personas  
A/B Testing  
1:1 walkthrough

#### Collaboration

Detail oriented  
Flexible  
Team Player  
Design Sessions  
Communicative

#### Tools

Sketch  
Illustrator  
Photoshop  
Coda / Nova

#### Development

HTML / CSS  
PHP  
Javascript
